Introduction

Welcome to iTakeControl®. These Terms of Use apply to the use of all iTakeControl Applications and Services, including but not limited to Mobile Application (the “**App**”), the iTakeControl websites www.itakecontrolhealth.com (collectively, the “**Websites**”), and the following web-based tools and services: the iTakeControl Clinical Study Management Portal for Healthcare professionals, clinical trial managers, caregivers and patients and related clinical study mobile engagement applications and tools, such as e-Consent Forms, videos, or surveys, etc. (collectively, the “**Platform**”). We refer to the App, the Websites, and the Platform collectively as the “**Solutions.**” We also create private, customized versions of the App, the Websites, and the tools and services comprising the Platform for the delivery of specified services to specified clients pursuant to services agreements we enter with those clients. These private, contract-built versions of the App, Websites, and Platform are included in the term Solutions. The Solutions

are offered by Daylan Digital LLC and its subsidiary companies. For convenience in these Terms of Use, we refer to Daylan Digital LLC and its subsidiary companies collectively with the pronouns by the names **“iTakeControl”** and **“ITC”** and by the pronouns **“us,” “we,” “our,”** and similar plural first-person pronouns. Users are referred to in these Terms of Use with the pronouns **“you”** and **“your.”** These Terms of Use are a legal agreement between us and you, which you enter into by using any of the Solutions. If there is a contradiction or inconsistency between these Terms of Use and any other written and signed agreement between us and any user, the provisions of the other agreement will prevail as between us and that user only.

PLEASE READ THESE TERMS OF USE CAREFULLY BEFORE USING ANY OF THE SOLUTIONS.

These Terms of Use constitute a legal agreement between you and us. By using any of the Solutions, you confirm and acknowledge your acceptance of, and agreement to, these Terms of Use. If you do not agree to all of these Terms of Use, do not use any of the Solutions.

We may revise and update these Terms of Use at any time. You should check these Terms of Use periodically. Your continued usage of any of the Solutions after any change to these Terms of Use will mean you accept those changes. The modification or update of the Terms of Use will be effective when an updated or modified version is made available on our Solutions; even if notification of an update is not provided to you.

THESE TERMS OF USE REQUIRE ARBITRATION ON AN INDIVIDUAL BASIS TO RESOLVE DISPUTES, AND FORBID JURY TRIALS AND CLASS ACTIONS. THESE TERMS OF USE ALSO LIMIT THE REMEDIES AVAILABLE TO YOU IN THE EVENT OF A DISPUTE. More detailed statements about these important waivers are contained in Section 20 (Dispute Resolution) and Section 14 (Disclaimer of Warranties and Our Liability).

Our Privacy Policy is incorporated into these Terms of Use, as if the full text of that policy were included in this agreement. By using any of the Solutions, you signify your assent to our Privacy Policy. If you do not agree with the entirety of the Privacy Policy, do not use any of the Solutions.

1. We Do Not Provide Medical Advice.

- 1.1** We do not Provide Medical Advice or Service. The contents and functionality of the Solutions, such as text, graphics, images, videos, and other material included in the Solutions (**“Content”**) are for informational, data management, and communications purposes only. The Content is not a substitute for professional medical advice, diagnosis, or treatment, and you should not rely on it as such.
- 1.2** Consult Your Own Health Care Provider. Always seek the advice of your physician or other qualified health care provider with any questions you may have regarding a medical condition. Never disregard professional medical advice or delay in seeking it because of something you have read on any of the Solutions.
- 1.3** Third-Party References. We do not recommend or endorse any specific tests, physicians, products, procedures, opinions, or other information that may be mentioned in the Solutions. Reliance on any information provided by us, our employees, others appearing within the Solutions at our invitation, or other visitors to, or users of the Solutions, is solely at your own risk.
- 1.4** Emergencies. Our goal in offering the Solutions is to provide digital tools to help our users manage their disease, disorder, or conduct a research study. However, neither we, nor the Solutions, are capable of real time intervention or interaction in emergent situations. We do not have human operators standing by, and our Solutions do not include links to third-party services, providers, or responders for purposes of real time responses to questions, concerns, or events. If you think you may have a medical emergency,

call your doctor or other health care professional or emergency services (e.g. 911) immediately.

2. Communicating with Us.

- 2.1** “Contact Us” Links. Each of the Solutions provides a; Contact Us link through which users may communicate with us. Our intent in providing this functionality is to enable users to request general information about the Solutions. When users communicate with us through these links, we receive those communications as e-mails. We do not promise to respond to user requests or statements submitted to us in this manner in any time frame or at all. Users must not rely on the “Contact Us” links/functionality provided with any of the Solutions as a means of communicating important or time-sensitive information to us or as a means of eliciting important, critical, or any other responses or actions from us.
- 2.2** More Formal Notifications to Us. Instructions for communicating with us more formally for various purposes are contained in Section 17 (Certain Complaints Regarding Content), Section 20 (Dispute Resolution), and Section 21 (Notices to Us).

3. Protecting the Privacy of Children – Solutions Intended for Adults Only.

- 3.1** Definition. For purposes of these Terms of Use and our Privacy Policy, the term “child” means a person who has not yet achieved the chronological age of eighteen (18). We also use the term “under age” to refer to a person who is a child; we use the term adult or of “legal age” to refer to a person who is at least eighteen (18) years old.
- 3.2** Use by Children Generally Not Intended or Promoted; Exception for Children’s Clinical Trials. Except as described below in this Section 4.2:
- The Solutions are not intended or designed for children;
 - We will not include design elements in the Solutions for the purpose of attracting children to the Solutions;
 - We intend that the Solutions be used only by adults;
 - We do not knowingly collect through the Solutions any personal information from any underage person, except as authorized by a research study approved by an institutional review board described below; and
 - If we obtain actual knowledge that we have collected personal information from an underage person through the Solutions other than as outlined below, we will exercise commercially reasonable efforts to delete this information from our data base or render it inaccessible or irretrievable by ordinary data access and retrieval methodologies.

The only exception to the foregoing statements is in the context of clinical trials intended to enroll children as patients. In these instances, the written informed consent instruments prepared by the companies sponsoring the clinical trials and signed by the patients or their legal guardians, as applicable, describe the information (which would include information about the children enrolled as patients in the clinical trials) collected by the Solutions.

- 3.3** User’s Representation and Warranty. Except in the case of a child using the Solutions in connection with

their participation in a clinical trial, by using the Solutions, you represent and warrant to us that you are of legal age.

- 3.4 Children's Privacy.** We are committed to protecting the privacy of children. Except as described in Section 4.2 above, we do not intend to collect any personally identifiable information from children, and we will not collect any personally identifiable information from any person we actually know is under age. Outside of a clinical trial involving patients or enrollees who are children, if a person who is under age accurately discloses that person's age in the appropriate field in the process of registering as a user of the Solution, that person will not be able to access the Content or upload or disclose any information through the Solution. However, outside of a clinical trial involving patients or enrollees who are children, if a child misrepresents the child's age, whether deliberately or accidentally, in the user registration process, then the child will be able to interact with the Solutions and upload information as if the child were of legal age. We do not use an automated algorithm to implement or effectuate our policy of not collecting personally identifiable information from children. Therefore, a person's statement in a post to the Social Support pages or in an e-mail to us that they or another user are under the age of 18 does not necessarily amount to actual knowledge on our part of that person's or the referenced other user's age. Please see our Privacy Policy for an explanation of our privacy practices with respect to information uploaded by users.

4. Access to, and Use of, Solutions.

- 4.1 Backup Your Own Uploaded Content.** When the Solutions provide an ability for you to store your own data or content, we recommend you back up your data and content, and continue to back it up regularly. We may create technical limits on your content, such as limits on file size, storage space, processing capability, and other technical limits. If your use of the Solutions exceeds any of these limits, we may suspend your access to the Solutions until you are within the limits associated with your account.
- 4.2 User-Generated Content.** In some cases, we host content generated by you and other users. We do not regularly review or monitor user-posted content. In using the Solutions, you may come across content that offends or upsets you. We provide a mechanism for you to bring certain Content you believe to be unlawful or otherwise improper to our attention. See Section 17 (Certain Complaints Regarding Content). Through that mechanism, you may, if so inclined, report the content to us. We do not promise, however, that we will remove or otherwise address the content you may report. Ultimately, your sole, and most effective, remedy with respect to Content you find offensive or upsetting is to stop viewing the Content. See also Section 9 (Fostering Community and User Conduct) for rules and guidelines for participation in the iTakeControl community and user conduct.

5. Your Access to Content.

- 5.1 Specific Authorization.** All Solution Content is protected by the copyright laws of the United States and, where applicable, of foreign countries. Content made available on the Solutions for download by ordinary means (i.e., without the use of special software tools or by hacking) is referred to as "Downloadable Content." We authorize you to view and use (and, to the extent the Solutions allows for it, to) download a single copy of the Downloadable Content solely for your personal, noncommercial use if you include the copyright notice located at the end of the material, for example: "©2020, Daylan Digital LLC. All rights reserved" and other copyright and proprietary rights notices contained in the Content. Any special rules for the use of certain software and other items accessible in the Solutions may be included elsewhere within those Solutions and are incorporated into these Terms of Use by reference.

- 5.2 Other Uses Prohibited.** Except for Content posted by our users (“User Content”), the ownership of which is described in Section 7.9 (Ownership of Your User Content), we and our licensors own all right, title, and interest in and to the Content. These Terms of Use grant to the user only limited and specific authorization to use the Content, including User Content, contained in Section 6.1 (Specific Authorization). Any use of Content not expressly permitted by these Terms of Use is a breach of these Terms of Use and may violate copyright, trademark, and other laws. All rights not expressly granted to users in these Terms of Use are reserved to us and our licensors. If you violate any of these Terms of Use, your permission to use the Content automatically terminates and you must immediately destroy any copies of Content in your possession.
- 5.3 Change or Termination.** Content, features, and functionality of the Solutions are subject to change or termination without notice at any time in our sole discretion.

6. Your Own User Content.

- 6.1 Privacy Policy Applies to Personal Information; Potential Inconsistencies Between these Terms of Use and our Privacy Policy.** The personal information you submit to any of the Solutions is governed by our Privacy Policy. However, these Terms of Use shall prevail and be controlling with respect to inconsistencies, if any, between these Terms of Use and our Privacy Policy.
- 6.2 Private Content Submissions.**
- 6.2.1** The Solutions contain pages, capabilities, or tools that allow you to upload Content to the Solutions. Certain of these pages, capabilities, and tools are meant for private use by each user (“Private User Areas”). Subject to the terms and conditions of these Terms of Use, Content uploaded to the Private User Areas (“Private User Content”) is not shared publicly and remains confidential.
- 6.2.2** You promise, represent, and warrant to us that you have all rights, permissions, and authorities necessary to lawfully use and submit your Private User Content consistent with these Terms of Use and to grant to us the rights granted to us under these Terms of Use with respect to your Private User Content. We may grant sublicenses hereunder through multiple tiers of sublicenses and sublicensees.
- 6.3 Information Submitted to Us by E-mail.**
- 6.3.1** Users may submit User Content or other information or communications to us by e-mail, including through the Contact Us link and the other e-mail addresses provided in these Terms of Use for various types of communications (See Section 17 (Certain Complaints Regarding Content), Section 20 (Dispute Resolution), and Section 21 (Notices to Us)).
- 6.3.2** The Content and other information users submit to us by email, including e-mails containing business information, ideas, concepts, and/or inventions, is subject to, and governed by, these Terms of Use and shall be deemed to be Public User Content. Notations in e-mails or in files attached to e-mails purporting to characterize the information transmitted in or with the e-mails as confidential or proprietary shall be null and void and shall not limit or modify the foregoing provisions of this Section 7.5.2.

6.4 Comments and Feedback.

- 6.4.1** Comments. The Solutions may allow you to comment on Content. Comments are not anonymous and may be viewed by other users. You may not be able to delete your comments. We may delete your comments.
- 6.4.2** Feedback. The Solutions may give you the opportunity to provide us with ideas, suggestions, or proposals ("Feedback"). Feedback is voluntary, and you have no obligation to submit Feedback.
- 6.4.3** Public User Content. Comments and Feedback are deemed to be Public User Content, subject to the broad rights granted to us in Section 7.3 (Public Content Submissions).

6.5 Image, Video, and Audio Files. If you include media files, such as photos, videos, or audio ("**Media**") in your User Content, you agree to the following:

- 6.5.1** You will post or upload only Media that you have created yourself or to which you have all rights to transmit and grant licenses and that does not violate any trademark, copyright, or privacy right or any other right of any other person.
- 6.5.2** You will not submit any Media that contains personally identifiable information (like name, phone number, email address or web site URL) of you or of anyone else.
- 6.5.3** Media you upload or share to any Public User Area, or through a Social Media Platform, or by e-mailing it to us, or that a user with whom you shared it as Limited-Shared Content makes public through the Services, will be deemed Public User Content, subject to the broad grant of rights to us described in Section 7.3 (Public Content Submissions) .
- 6.5.4** You agree you will not post Media containing an image(s) or video or audio recording(s) of or with another person(s) unless you have their explicit permission. Uploading Media containing images or recordings of other person(s) without their permission is strictly prohibited.

6.6 Your Representations and Warranties Regarding Your Media Content.

- 6.6.1** You warrant that you have received permission and all necessary rights from all persons appearing or heard in your Media for you to use their images and/or voice and/or other Content generated by them as you are using them and to share the Media with the Services.
- 6.6.2** You also warrant that you have received permission and all necessary rights from those persons to grant to us the rights described in these Terms of Use.
- 6.6.3** Specifically you warrant and certify that any person (including you) pictured, depicted, or heard, or whose Content is included in the Media (or, if a minor, that person's parent or legal guardian), authorizes us to use, copy, print, display, reproduce, modify, publish, post, transmit, and distribute the Media and any material included in the Media in accordance with the relevant rights granted to us in Section 7.3 Public Content Submission) and Section 7.10 (Additional License Grants) .

- 6.6.4** You also hereby agree to indemnify us and our affiliates, managers, members, employees, and agents against, and hold us and these persons harmless from, any and all claims, liabilities, damages and costs, including attorneys' and accountants' fees, arising from actions and claims by third parties pertaining to the Media included in your User Content. This indemnification obligation is in addition to, and not in lieu of, any other more general indemnification obligations contained in these Terms of Use.
- 6.6.5** You acknowledge we have the right, but not the obligation, to review all Media uploaded to the Solutions and to remove any Media for any reason, at any time, without prior notice, at our sole discretion. However, we do not have a regular practice of reviewing uploaded Media and there should be no expectation by any user that we will review or take any action with respect to any Media.
- 6.7** **Ownership of Your User Content.** You retain exclusive ownership of your User Content, including both your Private User Content and your Public User Content, subject to the rights granted to us in Section 7.3 (Public Content Submissions) and Section 7.10 (Certain Other License Grants).
- 6.8** **Additional License Grants.** The license and rights grants in this Section 7.10 are in addition to the grants of rights with respect to Public User Content contained in Section 7.3 (Public Content Submissions).
- 6.8.1** **User Experience Enhancement; Research and Education.** You hereby grant to us a non-exclusive, worldwide, perpetual, irrevocable, royalty-free, sub-licensable, and transferable license to use all your User Content in anonymized and de-identified form and aggregated with that of other users to enhance user experience and for research and education purposes. This license includes our right to use, and to grant to third parties the right to use, your User Content in anonymized and de-identified form, aggregated with the User Content of other users, for various purposes (including, for example, but not limited to, enhancing the understanding and management of a disease, disorder and other conditions).
- 6.8.2** **Operation and Improvement of Solutions.** You hereby grant to us a non-exclusive, worldwide, perpetual, irrevocable, royalty-free, sub-licensable, and transferable license to use, reproduce, publicly display, distribute, publicly perform, and translate the content as needed in response to user driven actions (such as when You choose to store privately or share Your content with others). This license is only for the purpose of operating or improving the Solutions.
- 6.8.3** **Preservation of, Access to, and Disclosure of User Information.** You acknowledge, consent, and agree that we may preserve the data you provided to us in registering your account ("Registration Data") and any other information you submit through the Solutions, and we may access and disclose it if required to do so by law or in a good faith belief that this access and/or disclosure is reasonably necessary in our judgment to: (a) comply with legal process, including, but not limited to, civil and criminal subpoenas, court orders, or other compulsory disclosures; (b) properly operate the Solutions consistent with applicable law and these Terms of Use; (c) enforce these Terms of Use; (d) respond to claims of a violation of the rights of third parties; (e) respond to customer service inquiries; or (f) protect the rights, property, or personal safety of all our Solutions, our users, or the public.

7. Registration Data, Other Account Information, and Password.

You are responsible for all activity that occurs in and through your account. You agree you will not give your password or other account credentials to anyone for purposes of allowing them to use the Solutions on or for their

own behalf. We prohibit you from allowing another person to use the Solutions for their own purposes through your account.

If you elect to entrust another person or persons with your password to gain access to your iTakeControl account on your behalf (but not for their own purposes), you assume all risks associated with doing so. That person or persons will be able to change your account settings and upload information through the Solutions in your name. That person's or those persons' actions through your account will be deemed to be your actions. The digital footprint left by them in cyberspace through your account will be deemed to be your footprint.

10. Privacy.

10.1 Generally. You should carefully read our full Privacy Policy before registering to use the Solutions, as it governs our treatment of all information submitted or gathered through the Services, including, without limitation, your Registration Data and User content, some of which is personally identifiable information. Certain information you may submit to us might reveal your gender identity, ethnicity, race, nationality, age, religion, sexual orientation, and/or other personal information about you. We are not a “covered entity” within the meaning of the Health Insurance Portability and Accountability Act of 1996, as amended (“HIPAA”), and the Services are not subject to regulation by the U.S. Department of Health and Human Services (“HHS”). Consequently, you should not expect the Services to be compliant with the requirements of HIPAA or the regulations of HHS. If you intend to use the Solutions in conjunction with individually identifiable health information (which would be referred to as protected health information or “PHI” if it were held or transmitted by a covered entity or business associate of a covered entity), you acknowledge and agree that the Solutions would not be HIPAA-compliant, if that term were applicable to us or the Solutions. You agree that we assume no responsibility or risk in any way related to your failure to update your account information when necessary.
